
DEALING WITH DIFFICULT BEHAVIOR... COULD IT BE COMMUNICATION?

This workshop will include the use of video modeling, data collection and other tools to reframe and reconsider student maladaptive behaviors. Participants will consider typical and atypical language development in light of observable behaviors, as well as gather practical tools for the classroom. Evidence based strategies and resources for students with various disabilities will be shared.

Workshop Location: Diagnostic Center, Central CA

1818 W. Ashlan, Fresno, CA 93705

Time: 12:30 p.m. – 4:00 p.m.
