

The Communication Connection to Literacy, Learning and Behavior!

6:00 – 7:30 P.M.

Sept. 20th, 2016

CA Department of Education
Diagnostic Center, Central CA
1818 W. Ashlan Ave., Fresno, CA 93705

This ***Parent and Caregiver Workshop*** will consider how communication skills (vocabulary, social understanding, listening comprehension & more) provide a basis for literacy, learning and behavior for all students. Workshop participants will consider:

- how limits in communication can create difficulties gaining academic concepts, following directions, completing school work, and maintaining peer relationships.
- often overlooked issues when addressing the needs of struggling students (including behaviors that interrupt school success)
- tools to support students and additional resources for future reference

To ask questions call 559-243-4047.
